Summary

I'm Tama, a software engineer based in Indonesia with over 8 years of experience in ERP software and game development industry. I specialize in using Odoo with Python on a daily basis, and I also dabble in Unity with C# on the side.

I'm passionate about leveraging technology to create innovative solutions that enhance the user experience. When I'm not coding, you can find me in my home, enjoying a cup of coffee and binge-watching my favorite sitcoms.

Let's connect over a virtual coffee and explore how we can work together to bring your vision to life – even if that means taking a break to catch up on some TV!

Experience

Senior Odoo Developer

Hangry

May 2023 - Present (11 months)

Software Engineer

Freelance

Jun 2021 - Present (2 years 10 months)
